

GRANT SUPPORT

Guidance for your funding
application.

short.ub.uni-frankfurt.de/fdm

Support

- For Integrating research data, software, Open Access, and Digital Humanities perspectives
- On DFG, BMBF, EU and other funder requirements
- For addressing FAIR, CARE and FAIR4RS principles in your application
- When developing data management plans (DMPs) and software management plans (SMPs)
- For handling sensitive data and legal aspects

Training & Workshops

We provide workshops and consultations for individuals, working groups and departments. Topics include:

- Research funders' requirements for data and software (DFG, EU, BMBF etc.)
- Writing and using DMPs and SMPs effectively
- Using RDMO in the application process

Workshops can be tailored to specific funders, disciplines, or project needs.

Let's talk!

We recommend contacting us at the beginning of the application process. We will assist you in developing an effective data and software strategy that meets both funder requirements and your research objectives.
